GOP Convention, Burlingame , San Mateo County

On Friday, April 29 at noon, Donald Trump is speaking at California GOP Convention Kickoff Luncheon. Convention runs 4-29 through 5-1 at the Hyatt Regency San Francisco Airport, Burlingame (San Mateo County).

- San Mateo County OES has attended planning meetings for this event. Cal OES ESC assigned will be getting further details this week on what the County OES participation level will be for the event.

Los Coyotes Indian Reservation, San Diego County

As a result of rains and flash flooding on the Los Coyotes Indian Reservation in San Diego County, Mission #2016-Southern-22320 was approved to address the community life safety needs, road repair, and other critical concerns in conjunction with FEMA, Bureau of Indian Affairs (BIA), Cal OES Southern Region, Cal OES Tribal Advisor, Caltrans Region XI, San Diego County OES, and Los Coyotes Tribal personnel.

- Caltrans installed five (8'x12') steel plates along with safety signage to provide temporary road stability and improved access over the Los Coyotes Reservation's only life line road.
- The road is currently stable with one lane closed
- Stakeholders will continue to monitor the situation to provide long term solutions.
- [Per the Cal OES Southern Duty Officer \(SDO\), due to miscommunication between BIA and Tribal personnel, BIA will conduct another site visit today.](#)
- The Tribe has applied for a US Army Corps of Engineers (USACE) funding waiver for repairs. USACE assessed the road and is awaiting BIA assessment.
- All further action is on hold pending the BIA assessment.
- National Weather Service is providing the Tribe with daily spot forecast data. There is currently a potential for precipitation on Monday which may cause additional road damage
- Emergency preparations in place, including food and generators staged with the Viejas and San Manuel Tribes
- offering assistance (no monetary contributions)
- The Cal OES Southern Region Tribal Point of Contact, Territory Representative, and SDO continue to monitor the incident.

SITUATION SUMMARY

Weather of Concern

Northern California

- For Northwestern California, temperatures are expected to be cold yet again tonight and Tuesday morning, and given the expected lighter winds, frost is expected to develop in many interior valleys.
- A bit of rain and snow through today with drier weather on Tuesday.
- Wet weather returns again midweek.
- Colder air with brisk northwest to north winds will spread across Eastern California today.
- Light snow accumulations (up to 3 inches) may produce slick travel conditions Monday morning near the Sierra and in foothill locations above 6000 feet.

Southern California

- Gusty Northwest winds are expected through tonight for much of the region.
 - West winds increasing this morning to 25 to 35 mph with 40-65 mph gusts expected.
 - Dangerous driving conditions are expected, downed trees and power lines are possible.
- Northwest Gales over the Coastal Waters will persist through tonight, with strong gales possible: gusts will range from 35 to 45 knots.
 - Large and rough combined seas are expected as the locally-generated wind seas mix with a longer period west swell.
 - Strong rip currents and longshore currents are expected for most beach areas, and minor beach erosion will be possible.

WEATHER

WEATHER SYNOPSIS BY REGION:

NORTHERN CALIFORNIA AND CENTRAL COASTAL AREAS:

Medford Weather:

The closed low pressure has moved into northern California this morning. The low is expected to continue to move southeast into Nevada. Isolated showers continue from the cascades west. Snow showers will continue over the Warners this morning from moisture wrapped around the low but by this afternoon the atmosphere is expected to stabilize under northwest flow aloft. Expecting less cloud cover tonight than previously thought and the radiational cooling could bring overnight lows for Southwest Oregon and Northern California valleys into the lower to mid 30s and frost is possible overnight. Please take needed precautions to avoid frost damage.

Eureka Weather:

Cool weather with breezy but gradually diminishing north winds will continue into Tuesday. Frost is expected across much of the interior tonight and a few of these areas may see temperatures fall slightly below freezing as well. Additional light rain is expected Tuesday night through Wednesday and a warming and drying trend will follow heading into the weekend.

Reno Weather:

Low pressure will move through western Nevada with a few showers and brisk northwest winds expected this afternoon. After a break Tuesday, unsettled weather returns for Wednesday and Thursday. A warming trend with dry weather is looking more likely for next weekend.

San Francisco Weather:

Cool and breezy conditions will continue today. Lighter winds are forecast for Tuesday along with seasonable temperatures. There is a chance of showers from late Tuesday night through Wednesday evening as a weather system tracks across California from north to south. Dry weather is forecast late in the week and into the weekend along with a warming trend.

Sacramento Weather:

Unsettled and cool weather today, then again Tuesday night and Wednesday.

WEATHER

WEATHER SYNOPSIS BY REGION:

CENTRAL CALIFORNIA AND SOUTHERN SAN JOAQUIN VALLEY:

Hanford Weather:

Blustery winds and below normal temperatures will occur throughout the Central California through this evening in the wake of a storm system over the great basin. A few showers will linger over the mountains today as well. A weak ridge of high pressure will bring dry weather and much lighter winds to the region from late tonight through Tuesday night. A pacific storm system could bring wet weather into the central California interior Wednesday through Thursday. Temperatures will average cooler than normal through Thursday.

SOUTHERN CALIFORNIA:

Los Angeles Weather:

Gusty northwest winds will affect parts of the area today and overnight. Slight warming is expected on Tuesday as high pressure briefly returns. Low pressure approaching from the northwest will bring cooler weather and possible showers on Wednesday and Thursday. Warming is likely for the end of the week and next weekend as low pressure moves east and high pressure builds.

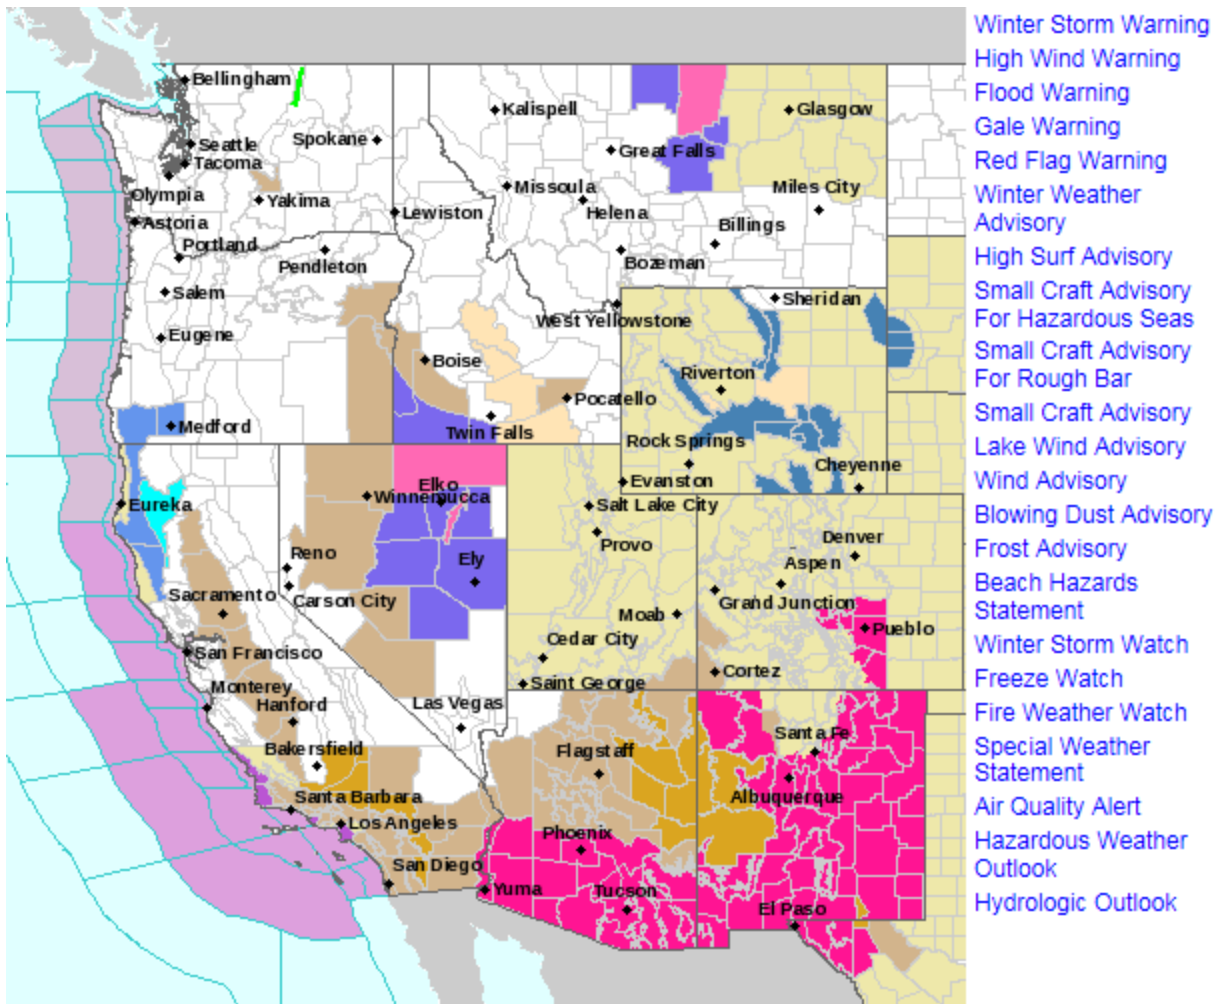

Extreme Southwestern California including Orange, San Diego, Western Riverside and Southwestern San Bernardino Counties:

Partly cloudy overnight with some increase in high clouds later tonight and temperatures a little above normal. Cooler today with increasing clouds strong and gusty west winds and a chance for light showers over and west of the mountains. Dry and a little warmer for Tuesday and most of Wednesday under weak high pressure aloft. Significant cooling again for late Wednesday and Thursday with a chance for showers and mountain snow along with gusty west winds in the mountains and deserts. The showers taper off on Friday but conditions remain cool before warming next weekend as a ridge aloft builds.

Southeast California Weather:

Several weather disturbances will pass through the region this week bringing occasionally stronger wind gusts cooler than normal temperatures and a remote chance of an isolated shower. The first system will move into the area today with strong winds and some blowing dust. The next area of low pressure will affect the region Thursday with more breezy conditions and an outside chance of showers and thunderstorms over higher terrain north and east of Phoenix. The final disturbance will rotate towards the region by the end of the weekend.
